Pertanyaan

Hypotesis

Prediksi

Apa perbedaan antara A dan B?

B lebih besar dari A.

Rata-rata panjangnya A (dari kepala sampai ekor, dalam cm) lebih besar dari panjangnya B.

Apakah A mempengaruhi B?

B hanya terjadi kalau ada A terlebih dahulu.

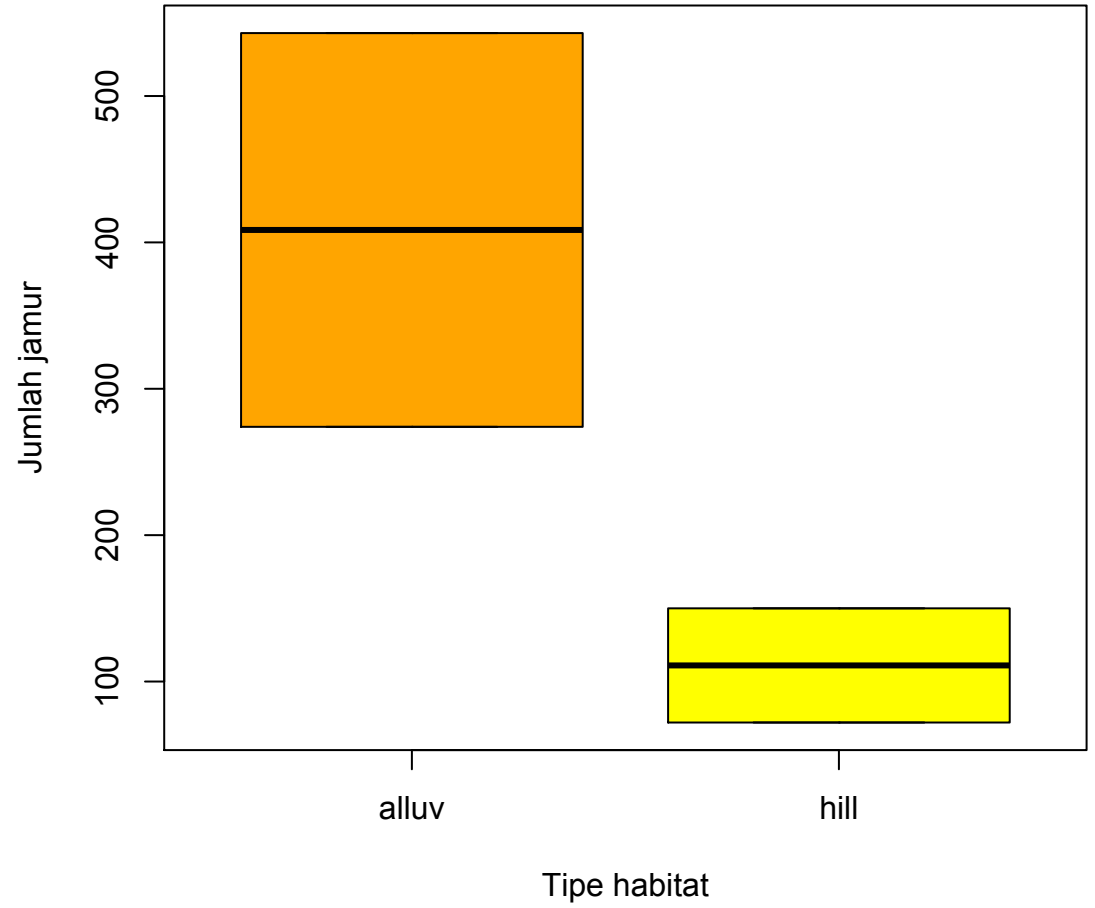

Setiap kali ada keadaan B, keadaan A terjadi dalam dua minggu sebelumnya.

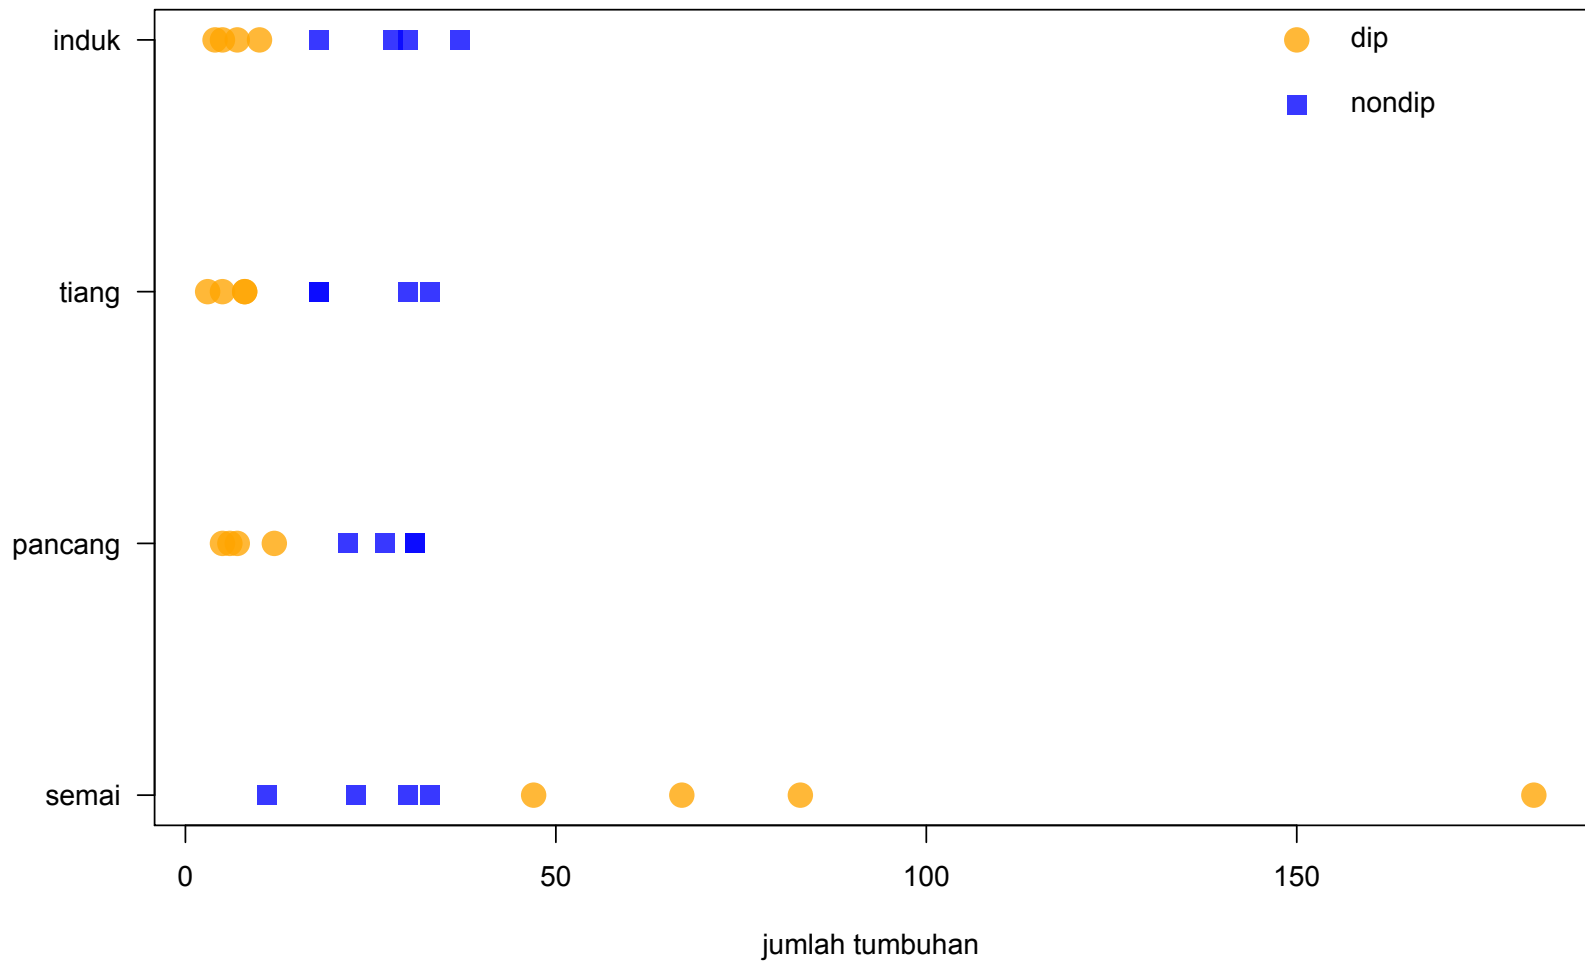

Apakah ada hubungan antara A dan B?

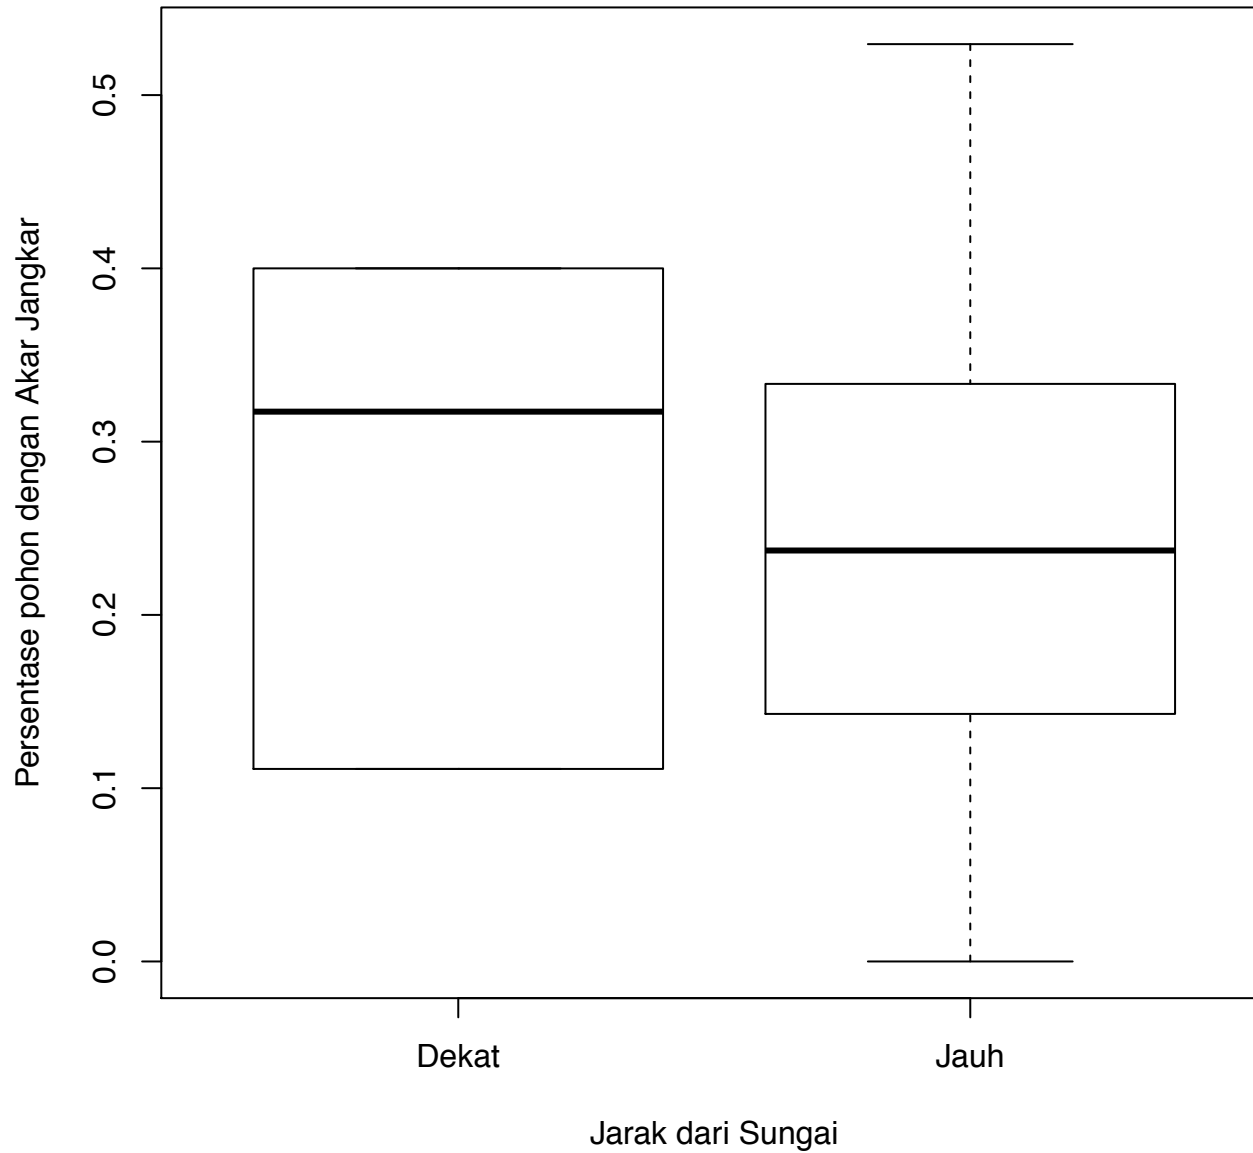

Faktor A ada efek negatif terhadap B.

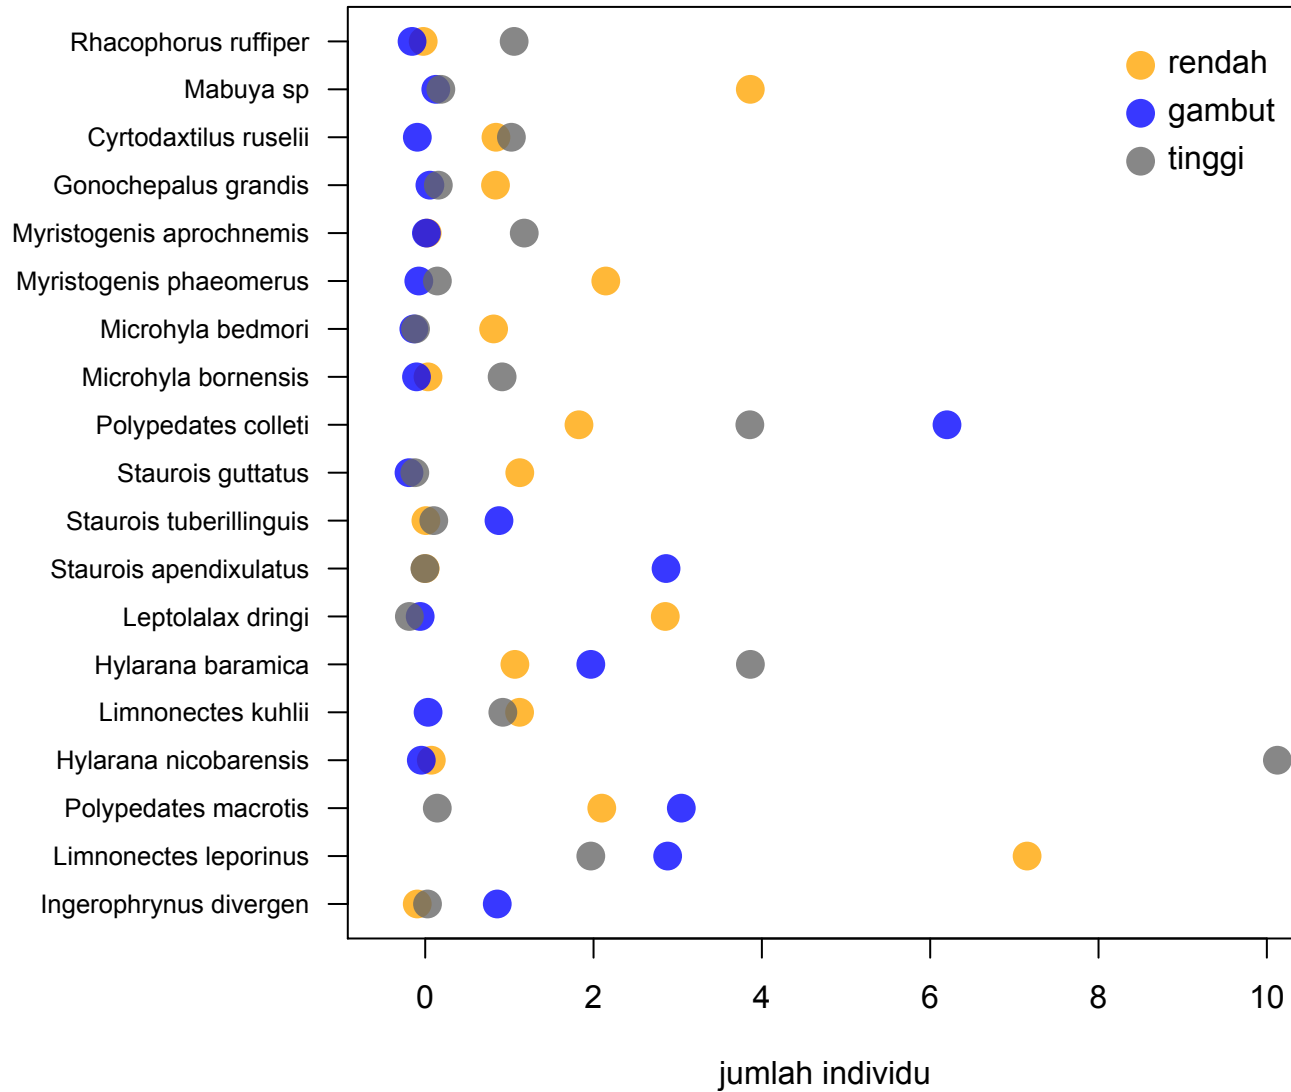

Kalau faktor A lebih besar, B lebih kecil.
