

Supplemental Table 1

Ordered Probit Analysis Predicting Noncompliance with the Laws of War using Cutoff Point of 6 to Judge Democracy

| Variable | Cases Unweighted by Data Quality | Cases Weighted by Data Quality | Only Cases without Standardized Codings |
|---|-------------------------------------|-----------------------------------|--|
| Reciprocal Variables | | | |
| Victim's Level of Noncompliance | -.285, .289, n.s. | -.513, .282, .069 | -.436, .349, n.s. |
| Clarity of Victim's Violations times Victim's Noncompliance | .172, .051, .001 | .180, .049, <.001 | .237, .058, <.001 |
| Joint Ratification times Victim's Noncompliance | 1.151, .353, .001 | 1.411, .343, <.001 | 1.636, .435, <.001 |
| Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | -.232, .069, .001 | -.279, .069, <.001 | -.338, .085, <.001 |
| Individual Violations times Victim's Noncompliance | .169, .157, n.s. | .321, .154, .037 | .167, .181, n.s. |
| State Violations times Victim's Noncompliance | .079, .168, n.s. | .264, .164, n.s. | .122, .191, n.s. |
| Non-Reciprocal Variables | | | |
| Joint Ratification | -.406, .373, n.s. | -.749, .373, .045 | -.673, .462, n.s. |
| Violator Ratified | .002, .168, n.s. | -.000, .177, n.s. | -.201, .213, n.s. |
| Violator Democracy | .609, .140, <.001 | .668, .135, <.001 | .632, .155, <.001 |
| Violator Democracy times Joint Ratification | .032, .294, n.s. | .293, .302, n.s. | .337, .393, n.s. |
| Violator Democracy times Violator Ratified | -.832, .300, .006 | -1.167, .308, <.001 | -1.219, .397, .002 |
| Power Ratio | .633, .235, .007 | .595, .236, .012 | .527, .273, .054 |
| Power Ratio times Joint Ratification | -.668, .287, .020 | -.491, .293, .093 | -.388, .351, n.s. |
| Aerial Bombing | -.193, .194, n.s. | -.158, .198, n.s. | -.212, .230, n.s. |

| | | | |
|--|---------------------|---------------------|---------------------|
| Armistice | -.500, .185, .007 | -.439, .188, .020 | -.562, .213, .008 |
| Chemical and Biological Warfare | -1.137, .167, <.001 | -1.022, .169, <.001 | -1.100, .199, <.001 |
| Treatment of Civilians | .442, .134, .001 | .485, .146, .001 | .361, .183, .048 |
| Protection of Cultural Property | -.006, .185, n.s. | -.014, .207, n.s. | -.028, .322, n.s. |
| Conduct on the High Seas | -.342, .164, .038 | -.207, .169, n.s. | -.349, .204, .088 |
| Prisoners of War | .217, .135, n.s. | .300, .147, .041 | .184, .179, n.s. |
| Violator Initiator | .320, .078, <.001 | .369, .078, <.001 | .515, .093, <.001 |
| Violator Battle Deaths per 1000 Population | .024, .0029, <.001 | .024, .0028, <.001 | .026, .0035, <.001 |
| Violator Lost | .599, .158, <.001 | .519, .159, .001 | .480, .192, .012 |
| Violator Lost times Power Ratio | -.766, .273, .005 | -.631, .278, .023 | -.584, .336, .083 |
| First Cutpoint (μ_1) | 0.82 | 0.70 | 0.92 |
| Second Cutpoint (μ_2) | 2.46 | 2.17 | 2.37 |
| Third Cutpoint (μ_3) | 3.65 | 3.44 | 3.81 |
| N | 1066 | 1066 | 798 |
| Log-Likelihood | -935.60 | -955.28 | -645.94 |
| χ^2 | 701.7 w/24 d.f. | 795.1 w/24 d.f. | 636.9 w/24 d.f. |
| Significance Probability of Model | <.0001 | <.0001 | <.0001 |
| Pseudo R ² | .273 | .294 | .330 |

Each cell gives estimated coefficient, standard error, and significance for a two-tailed test that the coefficient is different from 0 if the statistical significance exceeds the .1 level.

The omitted category for the dummy variables of the issue-areas is treatment of the wounded.

Constant is set to 0 to identify cutoff parameters.

Supplemental Table 2

Instrumental Variable Analysis Predicting Noncompliance with the Laws of War

| Variable | Cases Unweighted by Data Quality | Cases Weighted by Data Quality | Only Cases without Standardized Codings |
|---|----------------------------------|--------------------------------|---|
| Instrumented Reciprocal Variable | | | |
| Victim's Level of Noncompliance | .203, .102, .046 | .330, .091, <.001 | .349, .106, .001 |
| Non-Reciprocal Variables | | | |
| Joint Ratification | .106, .129, n.s. | .084, .133, n.s. | .116, .143, n.s. |
| Violator Ratified | .005, .093, n.s. | .022, .098, n.s. | -.084, .105, n.s. |
| Violator Democracy | .340, .078, <.001 | .414, .077, <.001 | .354, .080, <.001 |
| Violator Democracy times Joint Ratification | -.020, .171, n.s. | .157, .175, n.s. | .140, .206, n.s. |
| Violator Democracy times Violator Ratified | -.412, .175, .019 | -.678, .180, <.001 | -.600, .210, .004 |
| Power Ratio | .229, .144, n.s. | .278, .141, .048 | .212, .148, n.s. |
| Power Ratio times Joint Ratification | -.388, .156, .013 | -.370, .160, .021 | -.285, .172, .097 |
| Aerial Bombing | -.457, .103, <.001 | -.394, .104, <.001 | -.520, .122, <.001 |
| Armistice | -.396, .112, <.001 | -.305, .113, .007 | -.420, .128, .001 |
| Chemical and Biological Warfare | -.672, .114, <.001 | -.570, .112, <.001 | -.638, .136, <.001 |
| Treatment of Civilians | .374, .091, <.001 | .420, .103, <.001 | .331, .116, .004 |
| Protection of Cultural Property | -.002, .103, n.s. | .018, .122, n.s. | -.120, .177, n.s. |
| Conduct on the High Seas | -.324, .098, .001 | -.185, .100, .064 | -.290, .117, .013 |

| | | | |
|--|------------------------|------------------------|-----------------------|
| Prisoners of War | .166, .082, .043 | .231, .092, .012 | .110, .101, n.s. |
| Violator Initiated War? | .158, .045, <.001 | .196, .045, <.001 | .235, .049, <.001 |
| Violator Battle Deaths per 1000 Population | .015, .0018, <.001 | .015, .0019, <.001 | .014, .0022, <.001 |
| Violator Lost | .390, .091, <.001 | .338, .091, .007 | .292, .100, .004 |
| Violator Lost times Power Ratio | -.526, .156, .001 | -.421, .157, <.001 | -.361, .172, .036 |
| Constant | 1.340 | 1.049 | 1.135 |
| N | 1066 | 1066 | 798 |
| F statistic | 35.47 w/19, 1046 d.f.s | 44.25 w/19, 1046 d.f.s | 36.23 w/19, 778 d.f.s |
| Significance Probability of Model | <.0001 | <.0001 | <.0001 |
| Adjusted R ² | .428 | .506 | .542 |
| Sargan's statistic (distributed as χ^2 w/7 d.f.s), significance probability | 3.85, n.s. | 13.36, .064 | 10.10, n.s. |

Each cell gives estimated coefficient, standard error, and significance for a two-tailed test that the coefficient is different from 0 if the statistical significance exceeds the .1 level.

Sargan's statistic tests for the validity of instruments. The null hypothesis is that the instruments are uncorrelated with the error term and hence valid. A significant result indicates that the instruments are invalid.

The omitted category for the dummy variables of the issue-areas is treatment of the wounded.

Supplemental Table 3

Instrumental Variable Analysis Predicting Noncompliance with the Laws of War

| Variable | Cases Unweighted by Data Quality | Cases Weighted by Data Quality | Only Cases without Standardized Codings |
|---|----------------------------------|--------------------------------|---|
| Instrumented Reciprocal Variable | | | |
| Clarity of Victim's Violations times Victim's Noncompliance | .043, .021, .039 | .072, .019, <.001 | .077, .023, .001 |
| Non-Reciprocal Variables | | | |
| Joint Ratification | .110, .127, n.s. | .093, .133, n.s. | .121, .142, n.s. |
| Violator Ratified | -.003, .092, n.s. | .006, .098, n.s. | -.097, .104, n.s. |

| Sargan's statistic (distributed as χ^2 w/5 d.f.s), significance probability | 2.99, n.s. | 7.68, n.s. | 5.59, n.s. |

Each cell gives estimated coefficient, standard error, and significance for a two-tailed test that the coefficient is different from 0 if the statistical significance exceeds the .1 level.

Sargan's statistic tests for the validity of instruments. The null hypothesis is that the instruments are uncorrelated with the error term and hence valid. A significant result indicates that the instruments are invalid.

The omitted category for the dummy variables of the issue-areas is treatment of the wounded.

Supplemental Table 6

Statistical Tests of Strength of Instrumental Variables

| Instrumented Reciprocal Variables | Cases Unweighted by Data Quality | Cases Weighted by Data Quality | Only Cases without Standardized Codings |
|---|----------------------------------|--------------------------------|---|
| Victim's Noncompliance | 87.27 | 100.90 | 69.25 |
| Clarity of Victim's Violations times Victim's Noncompliance | 81.27 | 92.55 | 59.52 |
| Joint Ratification times Victim's Noncompliance | 55.90 | 58.46 | 44.87 |
| Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 50.31 | 51.40 | 37.24 |
| Victim's Noncompliance, and Clarity of Victim's Violations times Victim's Noncompliance | 1.37 | 3.64 | 2.91 |
| Victim's Noncompliance, and Joint Ratification times Victim's Noncompliance | 5.02 | 5.45 | 2.87 |
| Victim's Noncompliance, and Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 5.54 | 4.97 | 3.03 |
| Clarity of Victim's Violations times Victim's Noncompliance, and Joint Ratification times Victim's Noncompliance | 4.50 | 4.62 | 2.69 |
| Clarity of Victim's Violations times Victim's Noncompliance, and Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 5.48 | 4.21 | 2.79 |
| Joint Ratification times Victim's Noncompliance, and Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 4.61 | 6.92 | 7.13 |

| | | | |
|--|------|------|------|
| Victim's Noncompliance, Clarity of Victim's Violations times Victim's Noncompliance, and Joint Ratification times Victim's Noncompliance | 1.08 | 2.50 | 2.51 |
| Victim's Noncompliance, Clarity of Victim's Violations times Victim's Noncompliance, and Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 1.13 | 1.90 | 2.33 |
| Victim's Noncompliance, Joint Ratification times Victim's Noncompliance, and Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 3.53 | 4.90 | 2.84 |
| Clarity of Victim's Violations times Victim's Noncompliance, Joint Ratification times Victim's Noncompliance, and Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 2.92 | 4.20 | 2.64 |
| Victim's Noncompliance, Clarity of Victim's Violations times Victim's Noncompliance, Joint Ratification times Victim's Noncompliance, and Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | 1.05 | 1.52 | 2.33 |

Each line reports the Craig-Donald (N-L)*mineval/L2 F-statistic for an instrumental variable analysis including the listed endogenous variables and all exogenous variables used in Table 1. The null hypotheses of this test is that the instruments are weak. Test statistics greater than 15 lead to a rejection of this null hypotheses at the .05 level with 8 instrumental variables; see Stock and Yogo (2002).

Supplemental Table 7

Ordered Probit Analysis Predicting Noncompliance with the Laws of War dropping Aerial Bombing

| Variable | Cases Unweighted by Data Quality | Cases Weighted by Data Quality | Only Cases without Standardized Codings |
|---|-------------------------------------|-----------------------------------|--|
| Reciprocal Variables | | | |
| Victim's Noncompliance | -.617, .342, .071 | -.993, .356, .005 | -.816, .460, .076 |
| Clarity of Victim's Violations times Victim's Noncompliance | .252, .077, .001 | .276, .079, <.001 | .277, .098, .005 |
| Joint Ratification times Victim's Noncompliance | 1.516, .413, <.001 | 1.879, .423, <.001 | 1.903, .551, .001 |
| Clarity of Victim's Violations times Joint Ratification times Victim's Noncompliance | -.297, .080, <.001 | -.372, .083, <.001 | -.401, .106, <.001 |
| Individual Violations times Victim's Noncompliance | .112, .207, n.s. | .337, .204, .098 | .340, .242, n.s. |
| State Violations times Victim's Noncompliance | .011, .218, n.s. | .265, .213, n.s. | .294, .252, n.s. |
| Non-Reciprocal Variables | | | |
| Joint Ratification | -.819, .419, .051 | -1.196, .432, .006 | -1.102, .547, .044 |
| Violator Ratified | -.025, .175, n.s. | -.040, .184, n.s. | -.216, .220, n.s. |

| Significance Probability of Model | <.0001 | <.0001 | <.0001 |
| Pseudo R ² | .291 | .318 | .367 |

Each cell gives estimated coefficient, standard error, and significance for a two-tailed test that the coefficient is different from 0 if the statistical significance exceeds the .1 level.

The omitted category for the dummy variables of the issue-areas is treatment of the wounded.

Constant is set to 0 to identify cutoff parameters.
