Brief:
Salomon Farms processes pasture raised chickens and seeks a real-world, simple and elegant solution for a mobile, 3-season, hydro heated & cooled chicken processing platform. Operations have increased and are no longer feasible. The Farm Hack aims to utilize design and engineering to aid Salomon Farms in the development of a sustainable method of processing healthy locally grown food.

Food and event space to be provided by Salomon Farms.

Day 01:
- Design Process
- Understanding the issues
- Brainstorming / Discovery
- Developing knowledge base

Day 02:
- Convergence
- Concept Generation
- Decision Making
- Mock-Ups
- Refinement

When: March 12th & 13th
10am - 4pm

Where: Salomon Gardens
13712 Grass Lake Road
Grass Lake, MI 49240
