Student 4
Interesting course. Wish we could have spent more time on applications.

Student 5
Fudong was really important for this class. Without him, I would have been completely lost. His discussions helped a lot with the math portion of the games and he was always willing to help outside of class.

Student 7
This is the greatest GSI course I have taken. Clear concepts.

Student 8
Fudong helped us better understand the content of the course and made sure to answer any questions we had. I did not expect much from the discussion section initially but Fudong proved me wrong.

More detail was needed in discussion. I feel like a good chunk of discussion was wasted time
