African Women Afro/Anthro/WS 427 Dr. Clark Fall 1992 MW 10:30-12 E Engineering 1213

Class meetings will vary in format, including lectures, small group discussions, films and other activities. They will assume that you have read the assigned readings for the week, so come prepared to discuss them. It is expected that we will have different viewpoints on these issues, as African women themselves do, based on the insights of our individual backgrounds and experiences. Exam essay questions will also assume that you have understood the readings and other presentations and thought about them.
