|---|---|
| <p>What is PROMPT?</p> | <p>The PROviding Mental health Precision Treatment (PROMPT) study's goal is to reduce the burden of depression by 1) increasing capacity in the mental health care system through expanding use of mobile technology-delivered interventions and 2) accelerating recovery from mental illness by better matching patients to pharmacological, psychological, and mobile-based treatments.</p> <p>More information about PROMPT data is available on the Precision Health Analytics Platform documentation site. Login with username@umich.edu (no med) and your Level 1 password.</p> |
| <p>What is DataDirect?</p> | <p>DataDirect is a self-serve software tool enabling researchers to access and explore clinical data. It includes information from the electronic health records (EHR) of more than 4 million unique patients, the Michigan Genomics Initiative cohort and the Michigan Medical School Central Biorepository. DataDirect User Guide</p> |
| <p>How do I access PROMPT data DataDirect?</p> | <p>Precision Health Analytics Platform (DataDirect without PHI) https://datadirect.precisionhealth.umich.edu/ Learn about DataDirect (without PHI) access requirements.</p> <p>PROMPT data is also available on the Deidentified Research Data Warehouse. For more information, contact the Contact the Precision Health Scientific Research Facilitators at: PHDataHelp@umich.edu</p> |
| <p>What data is included in PROMPT?</p> | <p>More information and details about PROMPT data are available on the Precision Health Analytics Platform documentation site. Login with username@umich.edu (no med) and your Level 1 password.</p> |
| <p>Where can I get help with using DataDirect?</p> | <p>Contact the Precision Health Scientific Research Facilitators at: PHDataHelp@umich.edu</p> |
| <p>How do I acknowledge DataDirect in publications?</p> | <p>The authors acknowledge the University of Michigan Medical School, the Data Office for Clinical & Translational Research and Precision Health for providing aggregation, management and distribution services in support of the research reported in this publication.</p> |
